

This week in preschool...

We have enjoyed learning all about farm animals and their babies. We have built little farms for our animals (including some dinosaurs!)

We really enjoyed creating our own farm scene based on the story of "What the Ladybird Heard".

We worked really hard to match numbers to quantities and made repeating patterns in lots of different ways.

We also practised learning to hear the oral blend in words like hen, cow, pig and dog. (e.g. hearing that d-o-g makes "dog")

We really enjoyed our forest school session and we made cloud windows to look at the sky and our surroundings. Please remember your wellies and forest school kit - all of it must be left at school.

We will be welcoming Ms Badley to our team next week.

Next week in Cherry Class

We will be learning all about woodland animals and there will be many different activities based on the story of "The Gruffalo".

We will look closely at Matisse's art work and make pictures using curvy and wavy shapes.

We will use junk modelling items to make animals.

The children will continue to develop their mark making skills by using paint, crayons and chalks.

Finally, the children will continue to take part in fun activities from our phonics programme.

We have been playing in our new playhouse!

Homework

As we will be learning about woodland animals perhaps you can take a woodland walk this weekend. If you find any exciting treasures please bring them in! If you find the Gruffalo please be careful!
