

## Highlights from this week

This week we have enjoyed thinking about shapes.

We walked around our school grounds looking for squares, triangles, circles and rectangles.

We used shapes to make some special rocket pictures. These unique pieces of work will be travelling home to you next week!

We also enjoyed this story!

Gail the snail had to persevere in this story.

When the children get ready for our forest school sessions they all try hard to get their waterproof outfits and welly boots on independently.

This supports their confidence and school work. However, it is still a bit tricky to remember to put all their items away when we return to the classroom!

## Next week in Cherry class

We will think about sequencing simple activities using the words: first, next and then.

We will have a go at correcting repeating patterns that have gone a bit wrong!

Finally, we will be acting out stories that we create as part of our helicopter story telling sessions.

## Junk Modelling

We have some junk modelling projects planned. Please can you bring in lots of clean yoghurt pots, plastic bottles or kitchen roll tubes. Thank you!

Here is a picture of our potato plants! It won't be long and we will be able to harvest our crop and eat them!
